
BIOGRAPHY FILES

For each name on this list, there is a file of biographical information among the Clipping Files in the Local & State History Room. Most consist of life stories about notable individuals in the Cumberland County area, past or present. A few contain information on significant individuals from other parts of North Carolina.

The best way to gather this biographical data is to examine the files in person in the Local & State History Room. The CLIPPING FILES INDEX makes it easy to find the file you want, and staff is always on hand to assist you. Staff is also available to answer brief questions about the content of specific files by telephone at (910) 483-7727 ext. 308, or by email at whunter@cumberland.lib.nc.us
